List of Figures

List of Tables

1 Introduction

Provide your background information and the problem statement here.

1.1 Objectives

What is the goal of this assignment?

1.2 Scope of Study

What are the limitations or boundaries of your project?

2 Methodology

Explain the mathematical formulas (like Least Squares) or the algorithms you used.

2.1 Data Collection

Where did you get your dataset for app usage and screen time?

3 Results and Analysis

This is where you put your graphs, charts, and mathematical proofs.

3.1 Calculation of Least Squares

Show your working here.

3.1.1 Matrix Formulation

Use subsubsections if you need to break down calculations even further.

4 Discussion

Interpret your results. Did the screen time correlate with the number of apps?

5 Conclusion

Summarize the findings of your mini-project.

A Source Code

Put your C++, MATLAB, Excel or R code here.

B Raw Data Tables

Put massive datasets here so they do not clutter the main report.
